BAKU WATER WEEK IS A SIGNIFICANT EVENT DEDICATED TO THE DEVELOPMENT OF THE WATER MANAGEMENT SECTOR IN AZERBAIJAN AND THE CASPIAN REGION.

The event brings the latest technologies and innovative solutions in water management to Azerbaijan, gathering government institutions, international companies, experts, and professional visitors at the Baku Expo Center.

OFFICIAL GUESTS

Zaur Mikayilov

Chairman of the State
Water Resources Agency of Azerbaijan

Majnun Mammadov

Minister of Agriculture of the
Republic of Azerbaijan

Mukhtar Babayev

Representative of the President of the
Republic of Azerbaijan on Climate Issues

Tamás Torma

Ambassador Extraordinary and
Plenipotentiary of Hungary to the
Republic of Azerbaijan

Nigar Arpadarai

Member of the Milli Majlis (Parliament)
of the Republic of Azerbaijan

VIP TESTIMONIAL

ZAUR MIKAYILOV

Chairman of the State
Water Resources Agency of Azerbaijan

// I believe that Baku Water Week will create opportunities not only for government institutions but also for the private sector and specialists to find innovative solutions to existing challenges based on new ideas. The event will foster new initiatives and effective business connections, contributing to improved efficiency in the management of water resources in our country.

PARTICIPANT TESTIMONIALS

Nicat Azizov

Deputy Chairman for
Economic Affairs at
Protean Construction

The greatest advantage of this exhibition is that various companies come together here, get acquainted with new products and technologies, and establish mutual relationships. This, in turn, creates opportunities for joint projects in the future. The gathering of companies operating in the same field in one place allows for the resolution of global issues, including challenges in water supply. During the exhibition, company representatives interact with each other. Some of them participate in this event annually and have become familiar faces, while others are new. These cooperation opportunities have a positive impact on the progress of our work.

Zahidat Hasanaliyeva

Senior Procurement
Specialist at
Evrascon company

In my opinion, holding exhibitions on these topics is extremely important. If such events were organized more frequently, they would bring even greater benefits. Especially now, when the world is facing pressing challenges — declining water levels, water scarcity, and other environmental issues — exhibitions like this can become a powerful platform for bringing together experts, companies, and innovative solutions. Additionally, I would like to see more participants from technologically advanced countries like China and other foreign companies at future exhibitions. I am confident that Baku Water Week not only helps companies gain visibility but also lays the foundation for new approaches to solving global industry challenges.

Vusal Poladov

Environmental Engineer
at Azersun Holding

Our mission is to share existing and planned projects, exchange ideas, and lay the foundation for collaboration by working with both public and private organizations. The exhibition is the perfect venue for that.

Tural Samedov

Head of the
Technical Department
at Euroline JSC

Exhibitions like this are very important for discussing problems, sharing new technologies and approaches, and searching for sustainable solutions. These events serve not only as a platform for company promotion but also contribute to industry development and the formation of environmental awareness.

PARTICIPANT TESTIMONIALS

Ali Secher

Civil Engineer at
Temelsu International

We would especially like to highlight the issue of water resource depletion. This is a global challenge, and we fully understand the seriousness of the problems related to drinking water. Events like this exhibition are important to draw attention to this issue and to bring it to the agenda. I believe such events play a role in finding solutions and bringing together the efforts of different countries and companies in this matter.

Parvin Azizov

Hydraulic Engineer
at PDL – Providence
Doytch LLC

Thematic exhibitions like this one are highly valuable. They go far beyond simply showcasing products and services. They create a unique platform for discussing current challenges, searching for new solutions, and building partnerships with diverse stakeholders. We are grateful for the organization of this event and hope that such initiatives will continue to drive cooperation in the name of sustainable development.

Seymur Orucov

Head of the
Technical Department,
Elit-S MMC

I believe that it is extremely important to hold such exhibitions regularly. These platforms make it possible to improve irrigation systems, manage water resources more efficiently, and share technological solutions in this field. All of this has a direct positive impact on addressing the global issue of water scarcity.

Shahin Orujov

HR Manager at
Tunel Tikinti Servis MMC

Exhibition is a highly valuable platform. It allows for the exchange of ideas on both technical innovations and global challenges. The more regularly such events are held, the more progress we can make — as an industry and as a society — toward a sustainable future.

VISITOR TESTIMONIALS

Hongwei Zhang

Sales Manager at "Swell Technology"

We are very happy to be attending this exhibition! The event is well-organized, with a strong lineup of professional participants. For us, as experts in pipeline diagnostics, this participation has been extremely valuable. We've already spoken with several local companies and developed a genuine interest in potential collaboration. Events like this are a great opportunity to exchange knowledge and find partners, especially in technically complex and highly specialized industries. The exhibition clearly shows how much attention is being paid in Azerbaijan to the preservation and efficient use of water resources.

Gavin Zhang

Sales Manager at "Shanghai Kajouan Pump"

This is my first time attending an exhibition in Baku, and I must say — the experience has been very positive. The atmosphere is professional, the participants are active, and the topics are highly relevant. It is especially nice to see companies from various sectors represented here — from construction to engineering consultancy. This provides an opportunity to gain a comprehensive understanding of the industry and to analyze both challenges and future prospects. Any exhibition is not only a platform for showcasing technology and innovation, but also for building international connections. For me, the Baku exhibition has fully met my expectations. The foundation for future cooperation with Azerbaijan has been laid.

Fuad Manafov

Deputy director of Mono Engineering

In Azerbaijan, as in much of the world, the issues of water supply and preservation of water resources are among the most critical. All of these matters require urgent solutions. In this context, organizing such exhibitions is extremely important and necessary. It is here that we gain access to a wealth of new information and learn about the latest technologies and approaches to solving water supply challenges. I am confident that Baku Water Week will broaden our knowledge and help us establish new contacts and partnerships — which, in turn, will contribute to solving many important and pressing issues in the future.

EVENTS WITHIN THE EXHIBITION

- PANEL SESSIONS AND PRESENTATIONS IN THE FIELD OF THE WATER INDUSTRY
- MEMORANDUMS SIGNING CEREMONY IN THE WATER INDUSTRY
- 2ND INTERNATIONAL CONFERENCE FOR WATER MANAGEMENT - WATER FOR TOMORROW: FROM SCARCITY TO STRATEGY
- 6TH CASPIAN WATER INNOVATION FORUM
- BILATERAL BUSINESS MEETINGS (B2B/B2G)
- THE INSTALLATIONS EXHIBITED IN THE FOYER INCLUDED THE ZABUKHCHAY RESERVOIR – THE FIRST RESERVOIR OF LIBERATED KARABAKH, THE GATE VALVE WATERWHEEL, THE HÖVSAN AERATION STATION, MODELS ON THE HISTORY OF WATER, AS WELL AS THE BAKU WATER SUPPLY AND OGHUZ-QABALA WATER SUPPLY SYSTEMS
- AWARDING CEREMONY FOR THE WINNING TEAMS OF THE HACKATHON

BUSINESS PROGRAM OF THE EXHIBITION

EVENTS WITHIN
THE EXHIBITION

A PART OF THE BUSINESS PROGRAM
OF THE EXHIBITION, THE FOLLOWING
PANEL DISCUSSIONS AND
PRESENTATIONS WERE HELD WITH THE
PARTICIPATION OF 16 SPEAKERS:

- Complete Water Treatment Solutions
- Achievement of the Guaranteed Results through Comprehensive Engineering of Water Supply and Wastewater Facilities
- Global Climate Change: Management of Drought Risks in Azerbaijan
- Current State of the Caspian Sea: Problems and Solutions
- Sustainable Wastewater Management - Towards the Goals of COP29

2ND CONFERENCE FOR WATER MANAGEMENT

EVENTS WITHIN
THE EXHIBITION

AS PART OF THE
2ND INTERNATIONAL CONFERENCE
FOR WATER MANAGEMENT,
THE FOLLOWING PANEL
DISCUSSIONS TOOK PLACE WITH THE
PARTICIPATION OF 31 SPEAKERS:

- Leadership in Water Governance: Regional and Global Perspectives
- Water Strategies: Infrastructure and Digitalisation
- Innovative Approaches to Alternative Water Resources Management
- Water Diplomacy: Cooperation beyond borders
- Water sustainability through science and innovations

6TH CASPIAN WATER INNOVATION FORUM

EVENTS WITHIN
THE EXHIBITION

AS PART OF THE
6TH CASPIAN WATER INNOVATION FORUM,
THE FOLLOWING PANEL DISCUSSIONS
WERE HELD WITH THE
PARTICIPATION OF 24 SPEAKERS:

- Advantages of Implementing Advanced Water Technologies
- Environmental Protection Technologies and Practices
- Recycling Technologies and Their Importance
- Application of Innovative Technologies in Water Management

B2B/B2G MEETINGS

EVENTS WITHIN
THE EXHIBITION

During the exhibition, bilateral business meetings were organized, providing additional opportunities for negotiations with several key clients. International and local manufacturers, distributors, and representatives of retail chains took part in the meetings.

A TOTAL OF 104 BUSINESS MEETINGS WERE HELD.
